# AJAX WAS VERY ACTIVE TODAY.

Stock Declined, but a Reaction Set | Godbe Process is Attracting Great In at the Close,

TESORA MUCH STRONGER.

Century Firm - Galena Advancing-May Day Sells Ben Butler Stationary.

The stock market was much quieter today. The demand for stocks seems to have fallen off with the approach of the heat of the past few days. Notwithstanding the comparative inactivity of other stocks Ajex commanded a good deal of attraction. Prices were much lower, however, running from \$1.73 at the opening as low as \$1.631/2. A slight reaction was noticed at the close when the stock advanced to \$1.68%. Daly was active around \$2.38, white Galena moved up to 231/2. Lower of experts and the saving on the crude Mammoth was traded in at \$3.85. May Day was active between \$1.55 and \$1.58, while Tesora moved up to \$1.17. Ben Butler opened at 181/2 but weakened to 1814. Century was strong around \$2.55. Dalton released 2,000 shares at 71/2. La Reine dropped 1,000 shares at 40c while Tetro was traded in at 151/2c. West Morning Glory participated at 4%c. Closing quotations were posted as fol-

MAXIMUM SAVING IS MADE.

Experiments Very Satisfactory - Western Group Sold-Con. Mercur Annual-Notes

A letter was received yesterday by a prominent Salt Lake mining man from a New Yorker whose fame as a successful miner is world wide, which has more than ordinary local interest in that it refers to the Godbe process of cyaniding gold ores. The writer says he is very much interested in the method because of the results of a number of tests made on the crude ore and tallings of a well known western mine, These tests were made in the presence ore was shown to be 94 per cent. There are several things which commend the new process to mining men. It not only effects a great saving with a mini-mum amount of cyanide, but it enables the operator to extract the values in a fraction of the time. Messrs. Ernest and Anthony Godbe of this city deserve credit for the process which has been patented. A number of tests have been made in the Butter's laboratory in the basement of the Dooly building. Mr Butters is very enthusiastic over the method and is desirous of using it in San Salvador and in California. The

latest tests from one of the big mines of the west shows a total extraction 96 per cent on ore, the heads of which assayed \$10.40 per ton. By the old method in use at this mine-the name of which is withheld for the present-the management was not able to make a closer saving than \$5 or \$6 per ton, but by the Godbe process of agita-tion as tried on a 900-pound lot of ore in the Butters' laboratory everything was saved but 40 cents per ton. In doing this work only one-fourth of a pound of cyanide was required per ton instead of three pounds as ordinarily used. The extraction was made in 13 hours, as against 10 to 14 days by the ordinary method. The tallings from mill at this mine showed a value of \$6.50 per showing, showing a very imperfect extraction. In the laboratory, by the Godbe process, a saving of 88 per cent of the values was made on a 900-pound lot of tailings. This was accomplished by what is called a "water wash" that is no cyanide was used in the treatment of the tailings, only that

Vice Provident John Dern of the Con. Mercur is very much interested in the process and those who have looked into the method predict a very general use it is especially valuable in ore which slimes easily.

which was in them from previous treat-

Salt Lakers Prospecting Placers. The Boise Statesman says: Nearly in the new gold discovery on Snaka river above Ontario, in which a number of Salt Lake railroad men are interest-This stakes nearly 20,000 acres of the ground. So far as known there is not a single claim that has changed hands since it was located, and there is no one who wants to sell.

There is a mystery surrounding the excitement and but few seem to know why they are rushing into the gold fields. Winston & Tucker of Ontario are ordering a drill today and will go to work in less than two weeks, having more than \$4,000 worth of work contracted at the present. Other drills are coming. J. S. Camp, representing a Seattle mining firm, will start work in a few days on a substantial shaft. William Havenor of Salt Lake comes on the ground soon and is sinking a regular mine shaft. It is reported that Charles G. Singer of Chicago resume: work in a few days, but this is only rumor as no one here is interested with Singer. Salt Lake parties have engaged well drills and by the fifth of July a therough test of the ground will have been established.

### A Shocking Fatality.

The story of a shecking mining fa-tality is thus told by the Laramie, (Wyo.,) Boomerang: Thursday night while A. R. Combs and Charles Bucker were working in the tunnel of the Cres mine at Grand Encampment, the shaft house took fire and burned. The two men were working in the tunnel 00 feet from the flames, but smoke and fire filled the mouth of the tunnel, cutting off their air curbing timbers at the mouth of the tunnel were burned for some distance from the surface after the shaft house had been entirely consumed and it was some time before a rescuing party could enter the mine to search for the men. When finally reached the unfortunate men

#### had long been dead. Sale of New Pass Group.

It was xpected that the sale of the New Pass group of mines in Lander co. New, would be effected this afternoon. The property has been examined by two or three experts, the last one being J. E. Beveridge of this city. Mr. Beveridge handed in his rert yesterday, which shows the property to be in good shape. No great stir has been made by the owners of the group, who are Messrs, P. T. Farns-worth and J. F. Mitchell, but the mine said to be bigger than some people nagine. At a late hour this afternoon Mr. Farnsworth stated that while the would probably be closed late this af-

Con. Mercur Affairs. A dispatch was received last night from New Jersey stating that the annual meeting of the Con. Mercur Gold Mines company was held there yester-day and the old board was re-elected. The directors will meet on the lith inst, and elect officers. The dividend for the past quarter will also be ordered at that time. The secretary reports a 602 run at the mill last mill. About 28,000 tons of ore were milled which carried about the customary values, something under \$6.00 per ton. Nothing has yet been determined with regard to the treatment of the tailings at the old Manning dump.

### Notices of Location.

Special Correspondence. Provo. Utah Co., July 2.-J. W. Smith et al have filed notices of location of the following petroleum claims:

section 15, and Roosevelt in section in section 15, and Rooseveit in section 9, all in township 11 south, range 8 east, Salt Lake meridian.

Frank Baker et al have filed notices of locations of the following petroleum.

King No. 1, in Mud Gulch. Tie Fork: Divide, five miles northeast of Lewis' ranch in Spanish Fork canyon.

#### MINING NOTES.

Nothing new was reported at the Ajax today. Mr. Rood says the Daly is employing

a force of about fifteen men. Sales of Ontario were reported in New York last week at \$8.50 per share. Dr. P. A. H. Franklin went out to Tintic today to inspect the Yankee

The Taylor-Brunton Sampler report-ed 2 cars of ore from Bingham and 1

from Nevada today. The Salt Lake Copper company mar-keted a car of ore today from its Ne-

vada property. A. B. Lewis, who is operating in

Beaver county, has returned from a business trip to the east. Manager Willard Smith of the West Morning Glory reports the new holsting plant working smoothly. The shaft is

wn about 175 feet. The Neptune of Bingham reached the market today with a car of ore. A car of ore from the Phoenix of the same camp was on the market today.

An assessment of 1 cent a share has been levied by the Cleopatra Mining company. A contract has also been let to sink from the 400 level. The Dixie Copper mine near St.

George reached the market yesterday with 33 tons of copper bullion. The output for June is said to approximate 80 tons,

Manager J. E. Bamberger, who returned from the Daly-West last night, reports the mine looking about as usual. The regular dividend of \$45,000 will be declared within the next few

hours. Supt. D, P. Rohlfing of the Horn Silver has returned to the mine after spending a few days in town. He says the old bonanza will give an excellent account of itself in the near future. The

shipments are said to be increasing. The directors of the Quincy of Park City are scheduled to meet at the latter part of the month in Park City, but Director Newell says he has no idea what will be done regarding the ru-

mored dividend. The Vicksburg Mining company filed articles yesterday afternoon. The cap-ital stock is placed at \$50,000, in shares 10 cents each. The company owns six claims in Star district, Beaver county. The officers are: A. W. Win-berg Jr., president; R. B. Young, vice president; W. T. Edwards, secretary and treasurer. Robert Sherwood and J. P. Fowler are the other directors.

#### SHEET AND STEEL HOOP STRIKE Second Day Opened Without Interesting or Exciting Feature.

Pittsburg, Pa., July 2.-The second day of the strike of the sheet steel and steel hoop workers of the Amalgamated Association opened without interesting or exciting features. As President Shaffer, of the Amalgamated association remarked, the conditions of the present strike were peculiar and no decided results were expected for ten days or two weeks. By that time the manufacturers, having all necessary repairs at their mills completed, would be anxious to resume operations. The struggle would then begin in earnest. The belief is quite general, however, that the real test will not begin until the close of the hot weather and the general resumption of business in the early fall and in the meantime it is thought that the conflicting interests will see their way clear to recede from their present positions. President Shaf-fer mailed to the association lodges oday a circular which directs lodges to lay assessments upon their members, to be used for the relief of members of the association out of work The money collected will be placed in the general fund of the association. The association has for years been creating a strike fund and it is said now to amount to between \$200,000 and \$300,000 The combine officials do not appear to be worrying over the situation. Some of them intimate that there may be a renewal of negotiations at any time and a settlement effected. In outside circles the belief is growing that the strike will be called off before it gets fairly well under way. Outside the combine plants there is little apprehension over the situation. Among the independent companies in Pittsburg who have closed down, but vho are now ready to sign, are Zug & Copmany, limited: The Pitts-

#### Byers & company, and Brown & comdurana annon annon annon de la constante WITH THE JUSTICES.

burg Forge & Iron company, A,

The hearing of the case of N. Baer vs H. Hirschvogel to collect a grocer bill of \$54, which is on in Justice Nielson's court today, caused the defendant considerable trouble yesterday afternoon. Hirschvogel had been on the witness stand for some time and becoming tired of the questions asked, left the court room without saying anything to anybody. When his absence was noed, the court instructed Constable Anderson to bring the defendant back. He was then fined \$5 for contempt of court, but he claimed that he had no intention of doing wrong. The fine was then remitted and the case proceeded

About two months ago A. E. Hyde ost a horse and thereby hangs a tale, t was stolen from him and a few days subsequently he saw Councilman A. J. Davis driving the animal up the street. When spoken to about the matter Mr. Davis showed that he had purchased the horse from William Yearsley, A complaint was filed in Justice Lochrie's urt against Mr. Yearsley and he was placed under arrest. Then it was that he produced a bill of sale from a young man named Watson, and he was arrested and hauled into court. When Watson saw the trouble he was likely to get into, he at once set about to prove that he bought is prove that he bought the animal from Charles Stinson, and has at last disovered that the man is in Florence, colo., in the restaurant business. As on as requisition papers can be oband made to tell who be bought the horse from.

### TEACHERS.

Dr. Talmage's new book, "The Great Salt Lake, Present and Past," should be in the hands of every educator. The amount of information it contains relating to the great saline sea, makes it an invaluable work for reference or study.

BANK STATIONERY And printing specially attended to at the Descret News Office. Estimates promptly furnished. Rush orders a

Attendance on Board Was Small and Few Stocks Dealt in.

Speculation Was Listless - Price Movement Was Only 1-8 to 1.4 Per Cent.

New York, July 2.—Business in stocks started languidly with only a small attendance on the board. Only a few stocks were traded in, but these showed sharp declines in sympathy with the weakness in London in which murket United States Steel had lost 11/2 before the opening here. First prices here were not down to the Londen parity, but declines reached about a point in St. Paul, Louisville and Southern Pacific. Very few prominent stocks were offered at the low prices made at the start and they improved a fraction. Revived reports of the absorption of the Minneapolis & St. Louis by the Illinois Central system advanced the former stocks 1%, New York, Chicago & St. Louis common and second preferred were conspicuously strong as on yesterday and gained 2 and 1 respectively. Other Vanderbilt stocks were a trifle higher in sympathy. Odd lots were recorded on the tape for the first time since business reached the unpreedented proportions prevailing before

the check to speculation in May. Speculation was listless but steady during the second hour. The price movement of the active stocks was ½ to ½ per cent. Bonds were weak.

Money on cell steady at 3 per cent. Prime mercantile paper, 31/2651/2 per

Train Service

COLORADO TO CHICAGO.

On June 18th, the Rock Island will

establish "One Night Out" train ser-vice, Denver and Colorado Springs to

Chicago. Trains will leave Denver daily at 1:15 p. m., Colorado Springs at

1:30 p. m., arriving at Omaha at 6:00 a. m., Des Moines at 10:06 a. m., and

Chicago at 7:00 p. m. Connections made at Omaha with connecting lines for

Minneapolis and St. Paul. The equip-ment of this train will be up to date

in every way, containing all modern improvements both for comfort and

safety, and will consist of composite library car, sleeper, chair car and diner. The high class service of this "One Night Out" Rock Island train together

with the exceedingly low rates to the East in effect on that road beginning

June 20th, will insure a most liberal

# SIX MILLION DOLLARS SPENT

ing what was originally the finest track in the West RESULT.

A comparitively straight and level roadbed ballasted with dustless Sherman Granite rendering possible the highest rate of speed together with the greatest degree of safety. The magnitude of the work must be seen to WHAT DOES IT MEAN?

ARE YOU GOING EAST? If so you cannot afford to go via any other than this ROYAL HIGHWAY. Further in-formation on application personally or by letter to Ticket Office, 201 Main Street. Sait Lake City.

Solid comfort, security and pleasure to

### ONE NIGHT OUT. You Deal With But One Concern. Rock Island Inaugurates Fast

The Burlington route operates its own trains over its own tracks every

When you buy a ticket over the Burlington, you deal with but one concern, If you have any cause for complaintor think you have, which amounts to the same thing—you do business with but one railroad. You are not told that "we're not responsible for this," or "he shouldn't have said that," or "we'll refer this to our Chicago office." Leaves Denver 4:00 p. m. for Omaha, Peorla, Chicago, St. Joseph, Kansas City and St. Louis. Another good train

equipped with Palace Sleeping Cars, Butlet Smoking and Library Cars (with barber) and Dining Cars, meats "a la carte." LEAVES SALT LAKE CITY AT 12:30 p. m. DAILY. The Limited Fast Mail leaves Sait Lake every even. ing at 6:30 first class equipment, including Free Reclining Chair Cars. The Chicago Special leaves at 7:00 a. m. For tickets and reservations apply to ticket agents, or address C. A. Walker, Gen'l Agent Chicago &
